PRECAUTIONS

- 1) This is a high precision Game Pak. It should not be stored in places that are very hot or cold. Keep it in or keep it dry. Do not tape it apart.
 - 2) Avoid touching the connectors. Do not get them wet or dirty. Doing so may damage the Game Pak under the Control Deck.
 - 3) Do not clean with benzene, paint thinner, alcohol or other such solvents.
 - 4) Store the Game Pak in its protective sleeve when not in use.
 - 5) Always check the Game Pak edge connector for foreign material before inserting the Game Pak into the Control Deck.
 - 6) Nintendo recommends against using a color projection television with your NES as image transfer on the screen may occur.
- Note: In the interest of product improvement, Nintendo Entertainment System specifications and design are subject to change without notice.

The Story

Hi. My name is Michael Jones, but my friends call me Mike. I'm fifteen years old and I live in Seattle, Washington.

Have you heard of my Uncle Steve? Well, most people don't call him that, they call him Dr. Jones. He is a very famous archaeologist who is looking for some lost ruins in the Coral Sea. I've never actually met him, but last week I received a letter from him asking me to stay with him at his laboratory on C-Island.

I have tomorrow on a helicopter? I bet I won't be able to sleep at all tonight. Well, goodnight.

The Map of C-Island

*Please read the letter from Dr. Jones
appended to this booklet.

Today I landed on C-island after a long helicopter ride.
The people are very friendly, and they all seem to know my uncle.

My Complaint

I sure like this village, but I haven't been able to find my uncle anywhere and no one here seems to know where he is either.

Hi Mike!
I'm Chief Concho, a close friend of
your uncle's.

Listen! Try not to be upset...
Your uncle, Dr. Jones...
has been... abducted!!

Mike, you are the best hope of
rescuing Dr. Jones.

I'm the Shaman of Curstoria, and
the Chief's sister, Mary told
murders are said to be lying in wait
in the dark forest.

But remember!
The magic of the Southern Cross is
always on your side.

**Look for the Southern Cross in the sky
above to help you find your way.
Good luck!**

How to Start the Game

- Press any button during the Title screen to enter the Menu mode.

Menu mode

• Creating your own Mine

To start a new game, you create Mine by first registering your player name.

- At the Menu mode, use the SELECT button to choose REGISTER YOUR NAME and press START to enter the Register mode.
- Use the Control Pad to choose a letter and press the A button to print.
When you finish registering your name, select END and press START to return to the Menu mode.

• Reviewing the previous chapter

You can replay the game from the beginning of the chapter you have experienced.

•At the Menu mode, select the REVIEW MODE and press START.

•At the Review mode, select the title you want to review and decide the chapter using the Control Pad. And press START to begin the game.

Review mode

The Review Mode does not affect game data you have previously saved. However, anything you gain in while in the review mode will not be saved.

*True Gamemasters always try the review mode, just to be certain that they haven't missed any important clues.

• Quitting the game

Your game data is saved automatically, so you may turn the power off or rest any time you like, except when the following message is being displayed on your screen:

HOW SAVING YOUR DATA...
REFRAIN FROM TURNING POWER OFF
OR RESETTING

A battery is used to retain the player's game data for five years. However, depending on the conditions under which the Game Pak is kept (such as exposure to high temperatures, etc.), the life of the battery may be shortened.

How to Play the Game

StarTropics consists of two different phases: the Travel Stage and the Battle Stage.

• During the Travel Stage

• Talk

Most islanders are friendly and know who you are. Try speaking to them.

Face a person then press the A button to bring up the person's words on the screen. The conversation progresses by using the A button.

Arrows indicate if there is more to be said.

When Miss enters a tunnel or cave, the Battle Stage begins.

During the Battle Stage

Press for choosing a weapon or using magic items.

Choose a weapon

Move the left/right Control Pad to choose any of the weapons Miss possesses. Press START to return to the battle.

• Hearts for Miki's energy

- At the bottom of the screen, hearts appear indicating Miki's energy. When Miki is attacked by an enemy, one of these hearts turns white. If all hearts turn white, it means Miki loses a life.

The life level shows the max. capacity of Miki's energy. It will be increased, when you advance to a new chapter.

- When Miki loses a total of three lives, the game is over. You must try again from the beginning of the Battle Stage.

• Fight enemies courageously!

- Miki starts his adventure with the basic weapon, the Island yoyo. This Island yoyo is so powerful that you can do damage to almost all of your enemies. However some tough monsters await you. So you need the help of special weapons or magic items, which are hidden in the underground. You'll need to find these hidden items in the Battle Stage.

Your collected weapons and items are displayed with each icon, followed by a number indicating how many shots are left.

When you lose a life, you have to give up all of your special weapons and magic items, which you have collected.

You can't carry over any special weapons or magic items to the next Battle Stage.

COMPLIANCE WITH FCC REGULATIONS

This equipment generates and uses radio frequency energy and it can interfere and be interfered by, that is, in strict accordance with the manufacturer's instructions, may cause interference to radio and television reception. It has been type tested and found to comply with the limits for a Class B computing device in accordance with the specifications in Subpart J of Part 15 of FCC Rules, which are designed to provide reasonable protection against such interference in a residential installation. However, there is no guarantee that interference will not occur in a particular installation. If the equipment does cause interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Represent the receiving antenna
- Polarize the NUT with respect to the receiver
- Move the NUT away from the receiver
- Plug the NUT into a different outlet so that control lines and receiver are on different circuits

If necessary, the user should consult the dealer or an experienced radio/television technician for additional suggestions. The user may find the following booklet prepared by the Federal Communications Commission helpful:

They have questions about the reporting system. What if, for example, a company has a contract for 100,000 units, but the company is not allowed to sell more than 50,000 units? Is it possible to have a contract for 100,000 units, but the company is not allowed to sell more than 50,000 units? Is it possible to have a contract for 100,000 units, but the company is not allowed to sell more than 50,000 units?

The first two reports are included in the *Journal of the American Statistical Association*, and the last two in the *Journal of the Royal Statistical Society*. The first two reports are by the authors of the first two reports in the *Journal of the American Statistical Association*, and the last two are by the authors of the last two reports in the *Journal of the Royal Statistical Society*.

data, 1990-1992). The two subpopulations are: (1) *non-migrants* (52.7% of the total sample) who remained in the same geographical area throughout the study; and (2) *migrants* (47.3% of the total sample) who moved to another geographical area during the study. The *non-migrants* were further divided into two subpopulations: (1) *non-migrants who remained in the same geographical area* (28.2% of the total sample); and (2) *non-migrants who moved to another geographical area* (24.5% of the total sample). The *migrants* were further divided into two subpopulations: (1) *migrants who moved to the same geographical area* (13.8% of the total sample); and (2) *migrants who moved to a different geographical area* (33.5% of the total sample).

The importance of this research will only be clear if you know why the researchers did not give a reward to the first group of people who had done a lot of good. It was because of a very important principle, the idea of *reciprocity*, which says that if you do something good for someone, they should do something good for you. The researchers found that people who were given a reward for doing good, did not do as much good as those who were not given a reward. This is because they felt that they had done the good deed for nothing.
